## EDUCATION

---

### B. TECH: CSE IN CYBER SECURITY: 2025

MALLA REDDY UNIVERSITY, HYDERABAD, 89 %

### INTERMEDIATE: 2021

SRI CHAITANYA JUNIOR COLLEGE, 96%

### SSC: 2019

TALENT ENGLISH MEDIUM SCHOOL, 88%

## SKILLS

---

- **Security Tools:** Wireshark, Nmap, Splunk, Burp Suite
- **Security Concepts:** Threat Monitoring, Incident Response, SOC Operations
- **Networking Basics:** TCP/IP, DNS, DHCP, VPN
- **Security Frameworks:** MITRE ATT&CK (Basic), OWASP Top 10
- **Ticketing & Reporting:** ServiceNow (Basic)
- **Operating Systems:** Windows, Linux
- **Programming:** Python, Java
- **Databases:** SQL

## WORK EXPERIENCE

---

### Cybersecurity Intern | Supraja Technologies (Feb 2023 - Jun 2023)

- Conducted VAPT on 10+ web applications, identifying and mitigating critical vulnerabilities.
- Utilized Burp Suite, Nmap, and Wireshark for proactive defense analysis.
- Monitored logs and alerts using Splunk and Wireshark for anomalies and attack patterns.

### Palo Alto Networks| AICTE & Edu Skills (May 2023 – July 2023)

- Simulated DDoS, phishing, and malware attacks; improved threat response handling.
- Documented incidents from lab simulations and suggested mitigation steps.
- Analyzed simulated threat intelligence to assess exposure and report critical insights.

## PROJECTS

---

### Web Fort Security - Innovating Cyber Defense for the Modern Web

- Engineered a backend framework for improved application security and scalability
- Optimized server response times and enhanced data flow efficiency.

### AnomaliScan - See Threats Before They Strike

- Performed data preprocessing, feature engineering, and traffic labeling on a mixed benign-malicious dataset.
- Enabled real-time anomaly visualization to support SOC teams in identifying cyber threats.

## CERTIFICATE

---

- Google Cybersecurity Professional Certificate
- IBM Penetration Testing, Incident Response
- Introduction to Networking – Cisco NetAcad
- Google IT Support Professional Certificate
